Assumptions

Topic	Detail
Algorithm	phase2-deterministic-v1; deterministic, never random.
Guest count	Missing expected guest counts default to 100 and are explicitly warned.
Capacity	Standard theatre capacity is 175; higher values require an override reason.
Availability	Unknown availability is always ineligible and never assumed available.
Coverage	Bartender positions are filled before ordinary servers to protect bar coverage.
Priority	Olena and Jackie receive a soft Spirit-only opportunity preference only.
50/50	Yana and Kate alternate when both are eligible; interruptions do not advance it.
On call	On-call obligations are tracked separately and do not count as paid hours.
